PAA 2007 CALL FOR PAPERS POPULATION ASSOCIATION OF AMERICA 2007 ANNUAL MEETING New York, NY March 29 to March 31, 2007 Deadline for Submission: September 22, 2006

INSTRUCTIONS FOR SUBMITTING A PAPER:

1. All presenters, discussants, chairs and session organizers must be members of the Population Association of America. If you are not a member, please visit the PAA website, <u>http://www.popassoc.org</u>, for a membership application form or contact the PAA office, 301-565-6710.

2. Submissions are made online at the 2007 Annual Meeting Program Website,

http://paa2007.princeton.edu. The process for submitting papers is similar to that from last year. All authors are asked to submit both: a) a short (150 word) abstract to be entered online; and b) an extended (2-4 page) abstract or a completed paper to be uploaded to the website following instructions available online. Authors may modify their submission online at any time until September 22, 2006.

3. Extended Abstracts must be sufficiently detailed to allow the session organizer to judge the merits of the paper, including a description of the topic to be studied, the theoretical focus, the data and research methods, and the expected findings. Alternatively, organizers will review completed papers. If your submission is accepted in a regular session you must upload the full paper by March 1, 2007.

4. The PAA 2007 Program website will allow session organizers to view the titles and authors of submitted abstracts as they are received online. The author making the submission must provide the full names, affiliations, addresses, phone numbers, fax numbers and e-mail addresses of **all** coauthors for each submission.

5. As in the past, all sessions are numbered. If you wish to have your abstract considered by two organizers, you must indicate the session numbers of your first and second choices on the Submission Form. This gives the first designated organizer first right of acceptance. No paper/abstract may be submitted to more than two sessions. **No participant may appear on the program more than twice**.

6. If no session is appropriate for your paper, you may either submit it as a poster to Session 1302 (see Instructions for Submitting a Poster below) or submit the abstract directly to the Program Committee Co-Chair, Barbara Entwise at Session 1301. This option is for papers that truly do not fit anywhere in the Call for Papers.

INSTRUCTIONS FOR SUBMITTING A POSTER:

1. Members are encouraged to submit papers for posters. All of the above instructions for paper/abstract submissions also apply for poster submissions. Authors who wish to submit their papers for consideration only for a poster session should submit their abstract to Session 1302, organized by the Program Committee Co-Chair, Greg Duncan.

2. Authors who are submitting a paper to one or two regular sessions may also have their paper considered for a poster session if it is not accepted in a regular session. Authors who want their papers considered for a poster session must check "yes" in the appropriate area of the online Submission Form. *If you do not check "yes", your paper will not be considered for a poster.*
